Education

Graphic Era Deemed To Be University

Jul 2022 – Jul 2026

Degree Name -B.Tech CGPA -7.91

Dehradun, India

Onkareshwar Saraswati Vidya Niketan Inter College

04 2020 – 03 2021

12th - PCM - Percentage - 84.60%

Kanpur, Uttar Pradesh, India

Onkareshwar Saraswati Vidya Niketan Inter College

04 2018 – 03 2019

10th - Science - Percentage - 88.50%

Kanpur, Uttar Pradesh, India

Work Experience

Salesforce Developer Virtual Internship, SmartBridge

May 2025 – Jul 2025

Remote / Virtual

- Developed **Lightning Web Components (LWC)** for UI and workflow automation.
- Worked on **API integration** and data management using Salesforce platform tools.
- Applied **MVC architecture** and reusable component design to solve real-world business problems.
- Collaborated on building **scalable enterprise applications**. [Certificate]

Ordnance Factory Board, Ministry of Defence (Archival Management System)

Jul 2024 – Aug 2024

On-site

- Developed a **web-based archival system** using HTML, CSS, JavaScript, and PHP.
- Digitized employee records and automated **PDF generation**.
- Deployed the system on a **secure private server environment**.
- Improved data accessibility and reduced manual record handling. [Certificate]

Projects

Task Manager Web Application – Node.js, Express.js, MongoDB [GitHub] [Live]

Jan 2025 – Mar 2025

- Developed a **full-stack task management system** with complete **CRUD functionality**.
- Designed and implemented **RESTful APIs** using Express.js and integrated **MongoDB** for efficient data handling.
- Tested APIs using **Postman** and followed **SDLC practices** for structured development.

EzeAgro – IoT, Edge Computing, Cloud Computing, GSM

Aug 2024 – Dec 2024

- Developed an **IoT-based smart farming solution** for **real-time field monitoring and data acquisition**.
- Reduced **locust infestations by 50%** and optimized **water usage by 20%** using sensor-driven insights.
- Implemented **NPK analysis** to improve **fertilizer efficiency by 10%** and enhance crop quality by **5%**.
- Streamlined operations, reducing **labor costs by 15%** and improving **harvest turnaround by 10%**.

Dead Code Removal Tool – C/C++, Lex, Yacc, Node.js[GitHub]

Feb 2025 – Jul 2025

- Developed an automation tool using **Lex & Yacc** to detect and remove **redundant code** in C/C++ programs.
- Integrated a **Node.js-based web interface** for file upload, processing, and cleaned output generation.
- Improved **code readability and performance** through automated parsing techniques.

Technical Skills

Languages: Java, SQL, C++

Frontend: HTML, CSS, JavaScript, React.js

Backend: Node.js, Express.js, RESTful APIs, .NET

Database: MongoDB, MySQL

Core Subjects: Data Structure and Algorithms, DBMS, Operating Systems, Computer Networks, OOPs

Tools & Platforms: Git, GitHub, VS Code, Postman

Professional Skills

Communication Skills: Clear and effective communication through team-based full stack projects.

Problem-Solving: Solved 200+ LeetCode problems; strong analytical and efficient coding skills.

Security & Implementation: Built secure authentication and session management ensuring data integrity.

Certifications & Learning

Top 3 – 24-Hour Hackathon (2023)

Google Cloud Computing (Fundamentals, Cloud Concepts) – LINK

AWS Cloud Practitioner (Cloud Basics, Deployment) – LINK
